1. South Africa Safari Dream – Big Cats Safari

BZ Travel English Study | video_id: F_MhHEQ6MmE | 25:31 | 2,501 views

經過三週和超過40場的遊獵體驗後，旅行者們分享他們的終極safari體驗。他們帶領觀眾深入克拉塞里自然保護區，辛巴野生動物旅館就坐落在大克魯格地區的邊緣。僅有八間套房，這裡沒有擁擠的人群。旅館時尚而獨特，可以近距離接觸非洲最具代表性的野生動物。很難相信這一切存在於荒野之中。

2. Introduction: Camp George

We spent three weeks and went on 40+ game drives. Join us for the ultimate safari — up close with Africa's wildlife, unfiltered, with honest reviews to help you plan your own adventure. In this video, we take you deep into the Klaserie Nature Reserve. Camp George is located in a private reserve on the edge of the Greater Kruger. It's a stylish, exclusive safari lodge with prime access to Africa's most iconic wildlife. Eight suites total — no crowds here. Step outside and it's wild Africa. Inside: tasteful decor, smart layout, pure comfort. From our private deck, there's a dry riverbed and an electric fence. We're right in untamed nature — facing the water hole, South Africa wine in hand, watching baboons outside the fence. A perfect prelude to our afternoon siesta.

喬治營地融合了現代舒適與狂野非洲。踏出戶外，你就置身於未馴服的大自然中；室內則是品味裝潢和純粹的舒適。從私人露台可以看到乾涸的河床和將營地與荒野隔開的電網。旅行者們面對水塘享用午餐，手拿南非葡萄酒，看著圍欄外的狒狒。這是下午小憩前完美的序幕，為下一場遊獵做準備。

3. First Drive: Female Leopard

At 4 p.m., our guide and an open-top Land Cruiser kick off our first evening game drive. First encounter: impala, a small group — the most common animal, found everywhere. Here, elephants rule the road. Young bulls can be cranky and sometimes very aggressive — but eventually they let us through. On our very first game drive, something incredibly rare: a female leopard with a freshly killed impala — bigger than she is. I've never been this close to a leopard before. She was right beside the vehicle dragging the impala toward a tree. The big horns got stuck in the

fork of the tree. She's exhausted, so she finally lay beside her prize to rest. Unfortunately, during the night, two hyenas took her prize. Up the road, two rhinos just grazing. We spent two weeks in Kenya without spotting one. Their horns are cut to deter poachers, but even hornless, they're massive and incredibly powerful.

在第一次遊獵中，旅行者們遇到了極為罕見的一幕——一頭雌性花豹帶著一頭剛殺死的黑斑羚，這獵物比牠自己還大。牠就在車輛旁邊，拖著黑斑羚朝一棵樹走去。這些動物的力量超乎現實。不幸的是，夜間兩隻鬣狗偷走了牠的戰利品。沿路而上，兩頭犀牛在吃草——牠們的角被割掉以阻止盜獵者，但即使沒有角，牠們仍然龐大、強壯且極其威嚴。

4. Camp George: Food & Life Between Drives

Good morning from Camp George. This is our first breakfast — unbelievable. The chef made banana muffins fresh from the oven, cappuccino, an assortment of cheese. And that's not even the breakfast we ordered yet. Feeling very spoiled. The staff is incredible. A safari day is similar to a lion's life: hunt, sleep, eat. 6 hours chasing, 8 hours asleep, 10 hours relaxing in the shade. Lions have the perfect work-life balance figured out. The camp has only 8 units, so it's not many guests but a lot of staff waiting on you hand and foot. The chef makes everything from scratch — bread, banana muffins, gourmet everything. He even invented a "butter candle": he lights a candle so the butter melts slowly for dipping his homemade bread. That's a first for us. Hippos secrete a pink oil from their skin — it's an antiseptic that protects them against harmful UV rays and keeps their wounds clean. This keeps them from getting algal infections from staying in stagnant water. "Wildebeest" is a direct translation from the Afrikaans word meaning "wild cattle." Beast groups like this are usually accompanied by other animals — especially zebra. Wildebeest eat the shorter grass stumps at the bottom, while zebras eat the longer pieces at the top. A perfect partnership.

safari的一天反映了獅子的生活：狩獵、睡覺和吃東西。清晨早早開始遊獵，接著是美食早餐。喬治營地的廚師從頭開始製作一切——香蕉鬆餅、卡布奇諾、雞蛋、培根，全都是美食級的。旅行者們學到了有趣的知識：河馬分泌一種粉紅色的防腐油來保護皮膚，角馬和斑馬吃草的不同部位，大象的糞便可以拿來生火。

5. Musth Elephant & Close Encounter

There's a spike in testosterone that causes the elephant to become very irritable, extremely unpredictable, and very aggressive. The only thing going through this elephant's mind is one thing — the ladies. If you get between him and the ladies,

you'll come into second place. He'll move you out of the way. This bull came right to my side of the vehicle. I could hear his slow, deep breaths. I swear he looked me straight in the eye. The guide whispered: "Don't move." He lifted his trunk to smell us — the tip right in front of me, close enough to touch. I didn't dare. I was too scared to even record it. With his curiosity satisfied, he turned and chased the other male away. Being near an elephant changes you. You feel humbled, alive, part of something older and bigger than yourself. The elephant's trunk is the most versatile tool in the animal kingdom — both brute force and delicate precision, all in one.

克拉塞里自然保護區實現了大型貓科動物邂逅的承諾。一頭英俊的獅子鼻子上的抓痕訴說著與競爭雄獅的戰鬥，享受著早晨的陽光。花豹展示了令人難以置信的力量，將比自身重兩倍的獵物拖上樹枝。荒野成為了一齣戲劇——每一個轉彎都可能展現出不可思議的景象。旅行者們感到無比幸運能見證這些時刻，他們對非洲的熱愛隨著每一次邂逅而增長。

6. Young Leopard & Hyena Den

It's winter, the dry season. A male leopard — the son of the female from our first drive — is on his own now, an inexperienced hunter. He's unlucky with impalas. We watch him stalk right beside us — muscles low, eyes locked. Not stalking an antelope, but a few big birds. Even small kills matter when you're learning to survive. An electric fence circles the lodge to stop the elephants — the real wrecking crew. Other animals can just sneak or hop right over. This is the Kudu — a common antelope in southern Africa and a favorite source of meat. Males grow long spiral horns. The females lack horns but have large sensitive ears for detecting predators. White stripes provide natural camouflage. Kudus are alert, fast, and extremely difficult to catch. On our last drive from Camp George, the guide took us to a hyena den — two pups. Ridiculously cute. For an hour, we watched them chase, wrestle, and argue over who's boss. Hyenas are actually Africa's most successful large predator. Their society is run by females. Born with teeth, these cubs are already fierce. On the way back, we passed a sleeping lion — completely unfazed by our presence. Every drive has been epic. Lions love using the roads — the easiest way to cover distance, which makes them easier to track. 【Note: 原始逐字稿在此截斷，結尾描述不完整。】
